

OFFICIAL ANNOUNCEMENT – January 2020**Change in the product range of SFC KOENIG Group**

Dear Sir or Madam,

In recent years SFC KOENIG Group has faced difficulties in the supply chain due to continuing lack of suitable turned parts suppliers. This capacity bottleneck has led to a significant deterioration of our delivery performance and to ever increasing production costs. Improvements regarding supplier capacities of turned parts is not expected. SFC KOENIG Group is therefore forced to take appropriate countermeasures.

Changes of manufacturing process on the SK 550 series:

In order to counteract these challenges in the supply market, SFC KOENIG AG will change the manufacturing process for the SK 550 series for the dimensions 4, 5, 6 and 7 mm to cold forming.

Phase Out Part	30.09.2020	31.12.2020	Replacement	01.03.2020
SK 550-040	Last order	End of production *)	SKC 550-040	Available **)
SK 550-050			SKC 550-050	
SK 550-060			SKC 550-060	
SK 550-070			SKC 550-070	

*) Production only as customized special

Lead time / price / min. order volume on request

) **Samples from 01.02.2020

Phase out HK series:

Production volume of the HK series has been declining sharply for several years and is constantly being replaced by the SK 550 series or is no longer specified for new developments. The production of the HK series in the dimensions 4 to 10 mm is therefore discontinued for economic reasons and replaced by the SK / SKC series.

Phase Out Part	30.09.2020	31.12.2020	Replacement	Available
HK040 CK-55-111AK	Last order	End of production *)	SKC 550-040	01.03.2020 **)
HK050 CK-55-111AK			SKC 550-050	
HK060 CK-55-111AK			SKC 550-060	
HK070 CK-55-111AK			SKC 550-070	
HK080 CK-55-111AK			SK 550-080	From stock
